TRAINING

Coding Dojo- Web Developer Bootcamp consisting of 1000+ hours of coding experience in 14 weeks

EDUCATION

University of Kentucky
Bachelors of Science

TECHNICAL SKILLS

HTML5
CSS3
Sass
JavaScript
MongoDB
Express.js
Angular.js
Node.js
AWS deployment
MVC architecture
Python
Django
Flask
Ruby on Rails
SQL
Bootstrap
RESTful architecture
GitHub/Version control
MAMP
NPM
Bower
PostgreSQL
Git Bash and Terminal
Vagrant
CRUD operations
Test Driven Development
Object Oriented Programming

PROFESSIONAL PROFILE

TECH ENTHUSIAST AND MANAGER with a desire to learn new technologies and programming languages. Experienced in managing team building, P&L's, and systems. Great communicator with a team oriented mindset. Reading management and leadership books has helped me realize the importance that achieving company goals has to achieving my own professional goals. Excited at the prospect of working with a new tech oriented team that I can learn from.

WORK EXPERIENCE

GM ALAMO DRAFTHOUSE – HOUSTON, TX 2015/16

Managed 560 seat movie theater restaurant combo building a structured team of Managers, Key Holders, Team Leads, and Trainers to bring the venue to profitability and stabilization. Trained multiple managers for other locations. Venue was at $4.5 million in gross when I took the job and $6 million when I moved on. Left the job happy with the work that had been done but decided it was time to start my journey into a technical field.

GM MELLOW MUSHROOM – CHARLOTTE, NC 2013/15

Opened new Uptown venue where I started as a training manager quickly learning Kitchen, Bar, Service management duties and taking over GM responsibilities. Trained a new GM for another store while acting as AGM/Bar/Service manager. Revamped inventory systems for all three Charlotte locations using built in tools in Inventory Xpress and decreasing food cost by decreasing on hand amounts.

CINEMA INTELLIGENCE – LOS ANGELES, CA 2016

Served as a consultant to CI. After writing movie schedules to increase profitability at the Houston Alamo Drafthouse venue I could provide their software developers with valuable information to adjust their product to write better schedules for movie theater and eatery combination stores.

EDUCATION

CODING DOJO – WEB DEVELOPMENT PROGRAM

An immersive full stack development program. Graduated with over 1000 hours of coding experience, and a working proficiency in MEAN stack, Python, Ruby and Rails as well as a wide range of other frameworks and libraries.

UNIVERSITY OF KENTUCKY- BACHELOR OF SCIENCE

Attained a BS in Psychology and a minor in Mathematics
